Debriefing

Dear Danielle,

Thank you very much for your involvement in this conversation, in which we will jointly examine the mission of "Blijf Buitenspelen". "Blijf Buitenspelen" aims to encourage people to discover the world in a new, playful way and to enrich everyday life with adventurous experiences.

In this debriefing we want to delve deeper into the core values of "Blijf Buitenspelen" and how these values are expressed in the brand identity and communication. We will also look at the implementation of these core values in various media expressions and communication materials of "Blijf Buitenspelen". In addition, we will discuss the effectiveness of the brand identity and message, including recognisability as an initiative and the clarity of the target group.

Media expressions

Diverse - Initially aimed at companies active in the sports and physical exercise sector, as well as organizations within the social domain. In addition, we focus on non-profit organizations such as municipalities, welfare institutions and educational institutions, as well as on team building activities for different teams within these organizations.

Introduce

Maya has been working at the WeMove gym in Almere as a sports teacher for about 6 years now. Here she mainly gives group lessons in boxing, yoga, Zumba and spinning. Previously, she worked for 5 years as a Physical Education teacher at a school in Houten. In 2018 she decided to move closer to her parents and moved to Almere with her partner Damain.

In her spare time she enjoys being active. She often meets up with her friends, takes dance lessons and sometimes goes surfing with her partner at the weekend. At the same time, she also appreciates being alone sometimes and enjoys drawing. Her biggest dream is to one day backpack through Asia and Africa.

Logo sketches

Devise

Sketches

Before we create logos in Illustrator, a good idea is essential. We first sketched logos to assess what works and what doesn't. On the following pages we develop some of these ideas further in Illustrator.

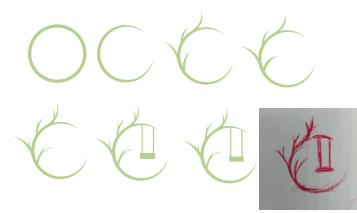

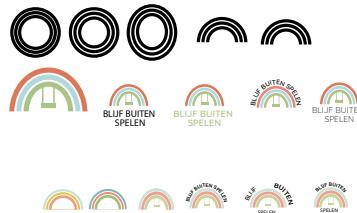

Digital logo sketches

Translate

Illustrator

We developed these logos in Illustrator. After consultation with the client, we adjusted the image and colors to the final result, which you see on the next page.

Final logo

Create

Logo

After some adjustments, this became the final logo: a tree with leaves and a swing. This logo radiates both sophistication and playfulness.

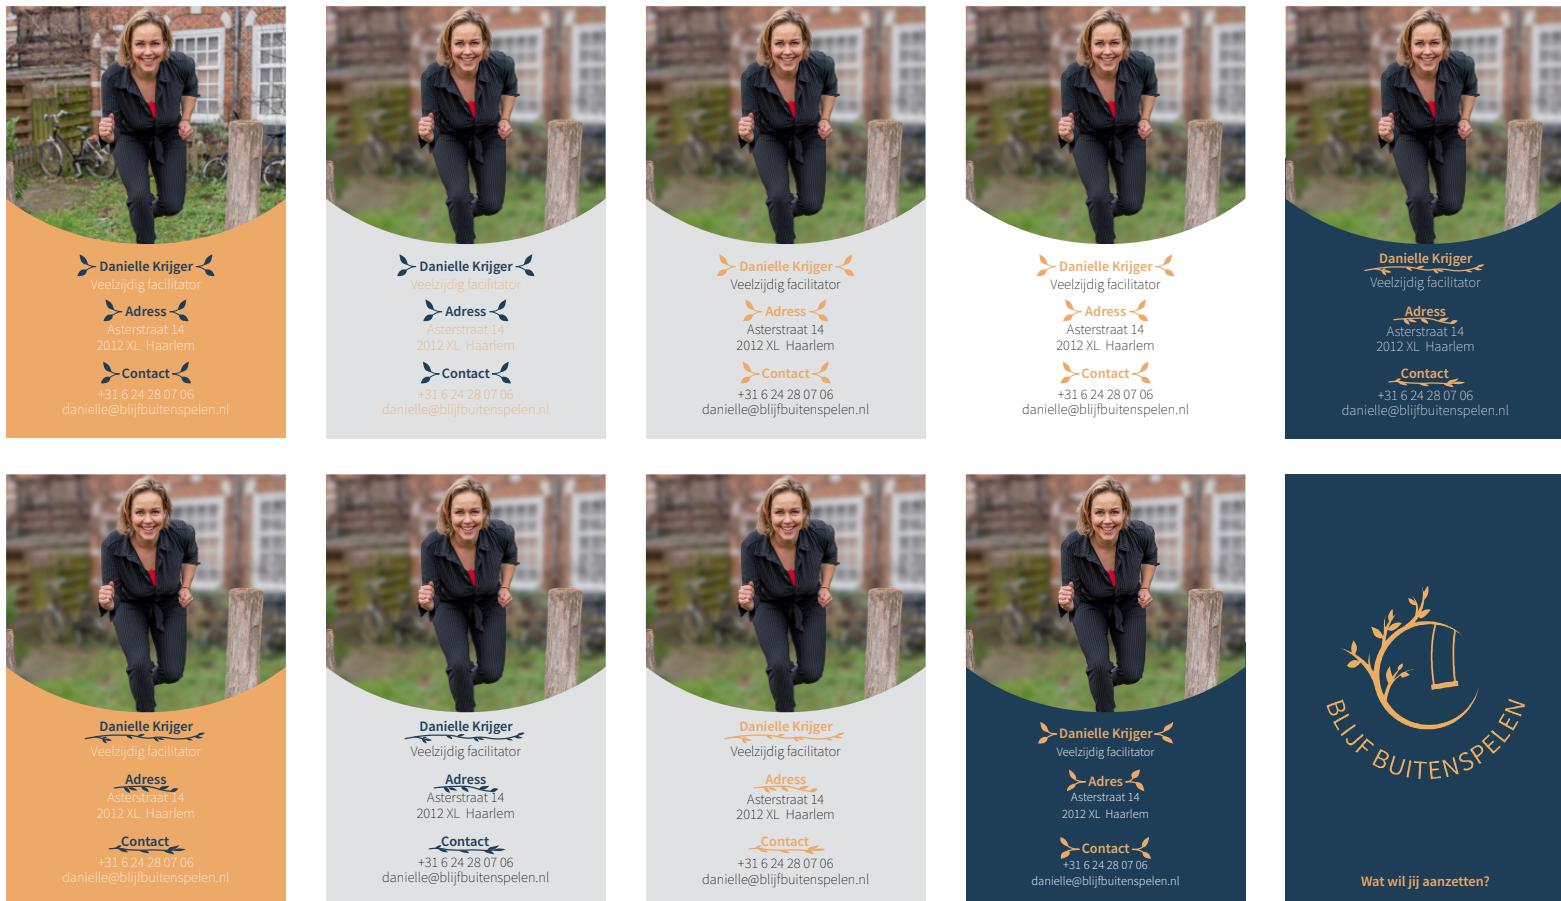

Digital business card

Create

Business card

The client asked for a digital business card. We first investigated how we could best shape this. Our research showed that we could present a traditional business card digitally on the website. In addition, it was possible to create a QR code with the contact details, which could be displayed next to the card.

Here you can see our process for the business card. The last two images show the final result.
